

Call for Papers

2018 International Conference on Management and Operations Research

Beijing Friendship Hotel, Beijing, China

July 7 - 9, 2018

<http://icmor.ustb.edu.cn>

The 2nd International Conference on Management and Operations Research (ICMOR 2018) will be held in Friendship Hotel, Beijing, China on July 7-9th, 2018. The aim of the conference is to provide a high-quality platform for scholars to share their ideas, knowledge and experience in the fields of management and operations research. We have invited famous scholars from China and outside China to deliver plenary speeches so that the participants can learn from their experiences and achievements. In addition, the conference will especially arrange a tutorial program in which the Senior Editor of Production and Operations Management (POM), the Associate Editor of OR Spectrum and the winner of Thousand Talent Program for Young Outstanding Scientists of China will talk on how to do research and publish papers in high quality international journals, and the expert from National Natural Science Foundation of China will deliver a speech on frontiers of management research. Participants can make face to face communications with them then.

All interested scholars are invited to submit an abstract by April 10 or a manuscript (no page limit) by May 10, 2018. The selected papers will be published in peer reviewed international journals and the best ones will be recommended to the journal indexed by SCI.

You are invited to learn, give a talk and exchange ideas with international colleagues, as well as enjoy and experience the great city of Beijing!

Relevant topics include, but not limited to:

Approximate Reasoning	Artificial Intelligence	Big Data
Computer Science	Data Mining	Decision Science
Decision Support Systems	E-Commerce Engineering	Economics
Engineering Economics	Enterprise Management	Environment Engineering
